SUPPLY CHAIN SOLUTIONS

ANALYSIS

Have a discovery call with one of our experts to understand your needs and explore opportunities for cost optimisation and profitability analysis.

EVALUATION

We integrate data, eliminate silos and connect what's disconnected - while supporting your business strategy. Together, we'll identify the right solution and map out a clear path to optimal efficiency, whether through one of our experts on retainer or a tailored solution from the FLOW Ecosystem.

OPTIMISATION

We help organisations define and optimise business processes that support their IT strategy. Through a clear IT roadmap, we ensure technology investments are strategically aligned with long-term objectives and positioned to deliver sustainable growth.

MEET OUR EXPERTS

HENNIE SERDYN

Hennie Serdyn is a seasoned professional with over 27 years of experience in supply chain, retail, manufacturing and IT. He specialises in designing and implementing data driven technology solutions that enhance operational efficiency and customer experience. He led various pick task optimisation projects with up to 40% gain in productivity. Hennie previously served as Executive at PEPKOR IT, where he led technology strategy and digital transformation initiatives across the retail supply chain serving more than 4 500 stores.

WILLEM VAN WYK

Willem van Wyk is a supply chain and logistics professional with over 30 years of experience across Africa, the Middle East, India and Southeast Asia. He specialises in end-to-end supply chain strategy, design, implementation and continuous improvement - with a focus on optimising efficiency, leveraging technology and enhancing the bottom line. Willem has led major initiatives, including cloud-based forecasting and replenishment systems for 62 supermarkets, paperless flow-through warehouses, differential ordering systems that improved productivity by 15% and integrated supply chain solutions for a 500-store convenience chain.
