PRODUCT TYPE | CAPTURE

The **Datatim Capture System** allows the user to input load data, manage the incoming documentation and follow through with the invoicing of completed loads.

Powered by the **FLOW_x FORTE**
ecosystem SUPPLY CHAIN SOLUTIONS

PRODUCT TYPE | **MANAGE**

The **Datatim Manage System** allows the user to assign specific vehicles and drivers to loads and monitor and track the status of the load from send-in, confirmation, on route and finally off-loading.

Powered by the **FLOW_xFORTE**
ecosystem SUPPLY CHAIN SOLUTIONS

PRODUCT TYPE | **SCHEDULE**

Have control over the planning and scheduling process through a digital 'Whiteboard Screen.'

See all available loads and available vehicles for a specific region and schedule all loads for the day.

In addition to the scheduling functionality, the user can also manage the driver debriefing process through the Schedule System.

PRODUCT TYPE | **MANIFEST**

Create multiple waybills and assign to a manifest load.

Cross-border documentation can be created directly through the system.

Debtor rate management and subcontractor load billing.

Vehicle income / expense and profit / loss reporting.
